

BMES Chapter Wins Spirit of Marquette Award for Third Consecutive Year

Marquette's Biomedical Engineering Society Chapter was awarded the 2018-2019 Rev. Robert A. Wild, S.J. Spirit of Marquette Award at the 50th Annual Student Leadership Awards Program on April 28th.

The Reverend Robert A. Wild, S.J. Spirit of Marquette Award is given to organizations that have most exemplified the University mission through their programs and services. Specific contributions through fostering personal and professional excellence, forming ethical and informed leaders, developing men and women dedicated to the service of others, and/or promoting a life of faith are considered.

Applications are reviewed by the Awards Committee to determine which student organizations have made significant contributions to the development of a positive campus culture through the activities they sponsor and the way the organization's members conduct their work.

Congratulations to our BMES Chapter E-board, members and faculty advisor, Dr. Lars Olson.
