

Joint Biomedical Engineering Seminar Series
MU ▪ MCW ▪ UWM

Friday, February 19, 2016
Noon-1pm
H1210-H1250
Medical College of Wisconsin

Bonnie Freudinger

Engineer
Biotechnology and Bioengineering Center
Medical College of Wisconsin

Abstract

The Power of Synergy in Medical Innovation

Biomedical engineers have a unique opportunity to shape the future of medical research and ultimately the future of clinical medicine, specifically because they didn't grow up in the research lab or the hospital wing. During this seminar we will apply the biomedical engineering approach to problem solving as we brainstorm solutions to a current medical research challenge. Come join us and provide your valuable insight!
