

Dr. Goldberg Elected Fellow of the National Academy of Inventors

Dr. Jay Goldberg, clinical professor of biomedical engineering and director of the Healthcare Technologies Management, [was elected fellow of the National Academy of Inventors](#) in recognition of his engineering patents and contributions to design, innovation and entrepreneurship in education. Election to NAI fellow status is the highest professional distinction accorded solely to academic inventors who have demonstrated a prolific spirit of innovation in creating or facilitating outstanding inventions that have made a tangible impact on quality of life, economic development and the welfare of society.

Prior to his role at Marquette, Dr. Goldberg worked in a variety of medical device research and development roles. He holds six patents for urological devices. He will be recognized at a formal induction ceremony in April.
