

### Dr. Brian Hoffmann and Tim Sobotka Receive CHW/CRI Grant Award

Dr. Brian Hoffmann (PI), Assistant Professor of Biomedical Engineering, and Tim Sobotka, Education Outreach Manager, have received a one-year grant award from Children's Hospital of Wisconsin Foundation and Children's Research Institute entitled, "SUPREMES Program Support." This award will aid in the continued programmatic development of the Students Understanding Principles of Research Education through Medicine, Engineering, and Science (SUPREMES) Program. SUPREMES is an academic year program that provides high school students with an experience in a biomedical research laboratory at the Medical College of Wisconsin, Marquette University, or the Children's Research Institute to further their development as young scientists.
